

**BeyondSkills**

Certification Program in

**FULL STACK  
WEB DEVELOPMENT**

Course duration: 4 months

# Why Choose Full Stack Web Development?

Choosing a career in web development offers numerous benefits, making it an attractive option for aspiring developers. As the backbone of the internet, web development plays a crucial role in creating and maintaining the vast array of websites and web applications that people rely on daily. The versatility of web development allows developers to work on a wide range of projects, from e-commerce platforms to interactive web apps. With the increasing demand for online presence across industries, the job market for skilled web developers is robust, providing ample opportunities for growth and innovation.

## Who should sign up for our certification course?

Our certification course is ideal for individuals who are passionate about Android app development and eager to gain practical, industry-relevant skills. Whether you're a beginner looking to break into the tech industry, a professional seeking to enhance your development skills, or a student aiming to build a strong foundation in mobile app development, this course is designed for you.

It's also perfect for entrepreneurs and business owners who want to create their own apps or better understand the mobile app development process. If you're looking to advance your career in the ever-growing field of Android development, this course is for you.

# Career in Full Stack Development

## Frontend Developer

- **Mid-Level Salary:** ₹8-18 LPA | \$70,000-\$100,000 per year
- **Skills Needed:** HTML, CSS, JavaScript, React.js/Angular, responsive design
- **Opportunities:** IT companies, startups, and product-based firms

## Backend Developer

- **Entry-Level Salary:** ₹3.5-9 LPA | \$45,000-\$70,000 per year
- **Mid-Level Salary:** ₹10-20 LPA | \$80,000-\$120,000 per year
- **Skills Needed:** Node.js, Python, Ruby, databases (MySQL, MongoDB), APIs
- **Opportunities:** Fintech, SaaS, and cloud-based companies

## Full Stack Developer

- **Entry-Level Salary:** ₹4-10 LPA | \$50,000-\$75,000 per year
- **Mid-Level Salary:** ₹10-20 LPA | \$85,000-\$130,000 per year
- **Skills Needed:** MERN/MEAN stack, Next.js, GraphQL, deployment processes
- **Opportunities:** Startups, product MNCs

## UI/UX Developer

- **Entry-Level Salary:** ₹3-7 LPA | \$35,000-\$60,000 per year
- **Mid-Level Salary:** ₹8-15 LPA | \$70,000-\$90,000 per year
- **Skills Needed:** Figma, Sketch, prototyping tools, JavaScript for interactivity
- **Opportunities:** Design agencies, product firms

## DevOps Engineer (Web Focused)

- **Entry-Level Salary:** ₹4-8 LPA | \$50,000-\$70,000 per year
- **Mid-Level Salary:** ₹10-25 LPA | \$90,000-\$140,000 per year
- **Skills Needed:** CI/CD, Docker, Kubernetes, AWS/Azure
- **Opportunities:** Large tech companies, enterprise software firms

# OUR CURRICULUM

## Introduction to Web Technologies-

- Careers in Web Technologies and Job Roles
- How the Website Works?
- Client and Server Scripting Languages
- Difference between a Web Designer and
- Web Developer.

## HTML-What is Markup Language Basic Structure of HTML

- HTML Elements
- Working with Forms
- Adding Special Characters
- Block Oriented Elements
- List, Attributes of list
- Uniform Resource Locators
- Hypertext Links
- Images, Tables
- Introduction to style Sheets
- Changing the Background
- Creating Style Classes

## CSS-CSS Introduction

- CSS Syntax
- CSS Id & Cass
- Types of CSS inks
- Colors and Backgrounds
- Text and Fonts
- Lists, Tables
- CSS Selectors
- CSS Box Model
- CSS Advanced

## Advanced Javascript-

- Form Validations
- Basics of Form Validation
- Validating Radio Buttons
- Validating Check-boxes
- Validating Select Menus
- JS Document Object

## Version Control-Introduction to Version Control and Git

### Getting Started with Git

- Basic Git Commands
- Branching and Merging
- Collaborating with Git
- Introduction to GitHub
- GitHub Workflow for Front-end Projects
- Best Practices for Git and GitHub
- Troubleshooting Git Issues
- Integrating Git and GitHub with Front-end Tools

## Jquery-What is JQuery?

- Using JQuery links
- JQuery Selectors
- JQuery Events
- JQuery Effects
- JQuery HTML

## Bootstrap Framework-Adding Header & Navigation

### Adding Logo in Navigation Bar &

- Adding Banner
- Adding Jumbotron
- Adding Rows, Columns & Containers
- Adding Column Width using offset
- Ordering Columns using push or pull
- Nesting Columns in Bootstrap
- Adding Footer top Website
- Adding Responsive or Utilities in Bootstrap
- Styling Button using between classes
- Styling Images and making images responsive
- Adding description list in bootstrap
- Adding Panels

## DOM-Introduction to DOM

- DOM manipulation
- create Element, set Attribute
- get Element By Id,
- query Selector vs query SelectorAll
- innerHTML vs innerText
- append Child vs append

## Asynchronous Programming-

- Callbacks
- MODULE 10
- Callback, Callback hell
- Asynchronous JavaScript
- Promises
- Promise, Promise States, Promise
- Chaining, Use of fetch() & then()
- Async/Await
- Async/Await with error handling
- Fetch API
- Implementing CRUD with HTML,
- CSS JavaScript

## React-React Basics

- ES5 vs ES6, JSX, Components, Props, State
- Components (simple to reusable)
- Passing data through props, Deploying to netlify
- React Hooks & States
- Working with array lists, Usage of keys
- Conditional rendering, Handling Events,
- Props vs State
- React Components
- Component lifecycle, Stateful & stateless components, Reusable components,
- Introduction to Hook
- React Hooks
- What is a hook?
- Lifecycle of Hook,
- Use State, Use Effect, Props drilling, Passing data from child to parent component

## UseRef & use Reducer-

- useRef, useReducer,
- Front-end game demonstration - hangman / tic tac toe / tile match
- Axios :
- Playing around with API, fetch() or Axios
- Implementing simple CRUD
- React-redux :
- Intro to Redux
- state management with react application

## Data-base MySQL-Introduction to MySQL

- basic queries
- DB model design
- Normalization
- select queries
- joins

## Database MongoDB-Introduction to MongoDB,

- CRUD operations
- basic cursor methods
- Aggregation
- Server-side vs Client-side
- rendering

## Node.js-

- Node.js Basics
- Node & MongoDB Connectivity :
- Connection to MongoDB(local & atlas)
- frontend + backend connectivity
- Introduction to Node.js, Npm packages
- Node.js & Express.js
- What is Express
- API methods
- Request & response objects
- URL & Query parameters

# PROGRAM MODES

| Features               | Self-Paced                  |
|------------------------|-----------------------------|
| Learning Format        | Recorded Only               |
| Span / Term            | 3 months                    |
| Total Content Duration | Approx. 46 hrs              |
| Video Content Duration | ~22 hrs                     |
| Certificates           | 2<br>(Projects ,completion) |
| Projects               | 3 (Mini + Minor + Major)    |
| Number of Quizzes      | 12                          |
| Fee                    | ₹ 8,000                     |

| Features               | Mentor-Led                   |
|------------------------|------------------------------|
| Learning Format        | Live + Recorded              |
| Span / Term            | 3 months                     |
| Total Content Duration | ~77 to 93 hrs                |
| Live Sessions Duration | 16 to 20 hrs                 |
| Video Content Duration | ~22 hrs                      |
| Projects               | 5 (2 Mini, 1 Minor, 2 Major) |
| Number of Quizzes      | 18                           |
| Certificates           | 2<br>(Projects ,completion)  |
| Fee                    | ₹ 15,000                     |

| <b>Key Aspects</b>              | <b>Self-Paced</b>                     | <b>Mentor-Led</b>                                                                                                      |
|---------------------------------|---------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Learning Mode</b>            | <b>Recorded content</b>               | <b>Live + Recorded</b>                                                                                                 |
| <b>Learning Style</b>           | <b>Flexible (at own pace)</b>         | <b>Structured (guided by mentor)</b>                                                                                   |
| <b>Average Content Duration</b> | <b>~45-55 hrs</b>                     | <b>~80-100 hrs</b>                                                                                                     |
| <b>Career Support</b>           | <b>Basic: Resume-building webinar</b> | <b>Strong: Resume building session + LinkedIn profile optimization + Placement assistance + Interview prep content</b> |
| <b>Projects</b>                 | <b>3 (Mini, Minor, Major)</b>         | <b>5 (2 Mini, 1 Minor, 2 Major)</b>                                                                                    |

|                            |                                                         |                                                                             |
|----------------------------|---------------------------------------------------------|-----------------------------------------------------------------------------|
| <b>Quiz Assessments</b>    | <b>12</b>                                               | <b>18</b>                                                                   |
| <b>Certificates</b>        | <b>2<br/>(Projects<br/>,completion)</b>                 | <b>2<br/>(Projects<br/>,completion)</b>                                     |
| <b>Budget Type</b>         | <b>₹8,000<br/>Budget Friendly</b>                       | <b>₹15,000<br/>Value for Money</b>                                          |
| <b>Best Suited For</b>     | <b>Beginners,<br/>affordable,<br/>flexible learning</b> | <b>Students needing<br/>structured<br/>mentorship &amp; career<br/>prep</b> |
| <b>Span / Term</b>         | <b>3 Months</b>                                         | <b>3 Months</b>                                                             |

# TOOLS & TECHNOLOGY

## Data Exploration & Preparation

- Data Cleaning Tools: OpenRefine, Trifacta, Excel Power Query
- Data Transformation: Pandas (Python), dplyr (R), SQL Data Wrangling
- ETL (Extract, Transform, Load): Talend, Apache Nifi, Alteryx

## Data Analysis & Statistical Modeling

- Statistical Analysis: R, Python (NumPy, SciPy, Statsmodels)
- Data Visualization: Tableau, Power BI, Matplotlib, Seaborn
- Hypothesis Testing & Regression: SPSS, SAS, JASP

## Business Intelligence & Reporting

- BI Tools: Tableau, Power BI, Looker
- Automated Reporting: Google Data Studio, Metabase
- Embedded Analytics: Sisense, Domo

## Optimization & Decision Making

- Operations Research: OR-Tools (Google), Gurobi, CPLEX
- Simulation Modeling: AnyLogic, SimPy
- Risk Analysis: Monte Carlo Simulations (RiskAMP, Palisade)

## Industry-Specific Applications

- Marketing Analytics: Google Analytics, Adobe Analytics, HubSpot
- Financial Analytics: Bloomberg Terminal, Quandl, Aladdin
- Supply Chain Analytics: SAP SCM, IBM Sterling, Anaplan

# WHY CHOOSE BEYONDSKILLS ?

## Expert-Led Training

Learn from top business analytics professionals with extensive industry experience, ensuring you gain practical knowledge and the latest techniques essential for excelling in the field of Web Development

## Comprehensive Curriculum

Our course covers all critical aspects of Web Development, including data manipulation, statistical analysis, machine learning, and data visualization, providing a thorough and well-rounded education.

## Interactive Learning Experience

Engage in hands-on projects, real-world case studies, and interactive sessions that make learning practical and applicable, helping you effectively apply business analytics concepts and tools.

## Affordable and Flexible

We offer competitive pricing and flexible scheduling options, making it easier to balance your education with other commitments while pursuing your business analytics certification.

## Career Support

Benefit from dedicated career services, including resume building, interview preparation, and job placement assistance, to help you achieve your career goals in business analytics.

## Recognition and Credibility

A certificate from upsynk, a respected name in Web Development education, adds significant value to your resume and enhances your professional credibility in this rapidly growing field.

# MEET OUR EXPERT MENTORS

Our mentor is dedicated to transforming beginners into skilled Web Development professionals through hands-on practical training, industry-relevant curriculum, and real-world project experience. With step-by-step guidance, personalized support, and exposure to advanced Web Development, learners gain the confidence, technical expertise, and problem-solving skills needed to excel in the field.

# REVIEW / FEEDBACK

I've completed my 2-month Full Stack Web Development internship at BeyondSkills. Thanks to my mentors for their guidance. This experience has boosted my skills and clarified my career path. Excited for what's next!

**Sunny Kumar**

Web Developer

Thank you, beyondskills , for the great web development internship. I'm grateful for the learning opportunity and support from the team. Excited to apply these skills in the future.

**Aakriti Bhardwaj**

Web Developer

Thrilled to have completed a 2-month Full Stack Web Development internship at Beyondskills! Huge thanks to Akshay Singhal sir, Suryansh Rana, and Gayathri N ma'am for their guidance. Excited for the new opportunities ahead!

**Rahul Jangir**

Web Developer

A big thanks to Beyondskills for the incredible full-stack web development internship. Grateful for the opportunity to grow, learn, and contribute with such a supportive team. It's been an amazing journey!

**Minakshi Singh**

Web Developer
