

BeyondSkills

Certification Program in

**DATA
SCIENCE AND
ANALYTICS**

Course duration: 3 months

WHY CHOOSE DATA SCIENCE AND ANALYTICS ?

Data science is at the forefront of modern innovation, driven by the exponential growth of data and the need for actionable insights across industries. With its ability to harness vast amount of data to uncover patterns, predict trends, and drive strategic decisions, data science has become essential for businesses aiming to stay competitive. The field offers diverse opportunities, from analyzing consumer behavior and optimizing operations to advancing machine learning and artificial intelligence. Its dynamic nature and broad applicability make it an exciting and impactful career choice, with significant demand for skilled professionals capable of transforming data into valuable intelligence.

WHO SHOULD SIGN UP FOR OUR CERTIFICATION PROGRAM ?

Our certification course is ideal for individuals looking to advance their career in data science or pivot into this high-demand field. Whether you're a recent graduate aiming to build a solid foundation, a professional seeking to upskill and stay competitive, or someone with a passion for data analysis and machine learning, this course provides comprehensive training tailored to your needs. It's also perfect for those who want to enhance their analytical skills, leverage data for strategic decision-making, and gain practical experience through hands-on projects.

If you're eager to unlock new career opportunities and make an impact through data, our course is designed to equip you with the expertise and credentials needed to excel in the data science domain.

Career in Data Science and Analytics

Data Scientist

- **Entry-Level Salary:** ₹4-8 LPA | \$55,000-\$85,000 per year
- **Mid-Level Salary:** ₹10-22 LPA | \$90,000-\$140,000 per year
- **Skills Needed:** Data analysis, Python, R, SQL, Tableau, statistical modeling, machine learning, data wrangling, and predictive analytics.
- **Opportunities:** Data-driven decision making, market analysis, customer behavior prediction, fraud detection, and product recommendation systems.

Machine Learning Engineer

- **Entry-Level Salary:** ₹5-9 LPA | \$60,000-\$90,000 per year
- **Mid-Level Salary:** ₹12-20 LPA | \$100,000-\$140,000 per year
- **Skills Needed:** Python, TensorFlow, PyTorch, Scikit-learn, data pre-processing, algorithms, and deployment.
- **Opportunities:** Building predictive models, recommendation systems, automation, and algorithm deployment.

Data Analyst

- **Entry-Level Salary:** ₹3-7 LPA | \$45,000-\$70,000 per year
- **Mid-Level Salary:** ₹8-15 LPA | \$70,000-\$100,000 per year
- **Skills Needed:** Excel, SQL, Python, data visualization tools (Tableau, Power BI), basic statistical analysis.
- **Opportunities:** Business intelligence, data reporting, trend analysis, and performance tracking.

AI Product Manager

- **Entry-Level Salary:** ₹7-10 LPA | \$80,000-\$100,000 per year
- **Mid-Level Salary:** ₹15-25 LPA | \$120,000-\$160,000 per year
- **Skills Needed:** AI product lifecycle management, Agile methodologies, business acumen, and basic ML concepts.
- **Opportunities:** AI-driven startups, enterprise software firms, and consumer-focused AI applications.

OUR CURRICULUM

PYTHON (INTERNALS, DO'S AND DON'TS) ARCHITECTURE, DATA STRUCTURE

- Installation of Anaconda Prompt
- Jupyter Notebook-An Overview
- Shortcut keys in Jupyter Notebook
- Data Types in Python

PYTHON, READING & WRITING FILES IN PYTHON

- Rules for Naming the Variables
- List, Tuple, Set, Dictionary
- Introduction to Files and directories
- Introduction to the command prompt or terminal paths
- Text files Reading from a text file Opening a file using "with" If, elif and else condition. For and While Loop

DATA ANALYSIS , MANIPULATION WITH NUMPY

- MACHINE LEARNING LIBRARIES NUMPY-HANDS ON

PANDAS PYTHON DATA SCIENCE PACKAGE TO MANIPULATE, CALCULATE AND ANALYZE DATA

- "PANDAS-HANDS ON"

EXPLORATORY DATA VISUALIZATION IN PYTHON WITH MATPLOTLIB

- Learn how to explore, visualize, and extract
- insights from data
- Data Visualization
- Matplotlib-Hands on
- Seaborn hands on

STATISTICAL THINKING IN PYTHON (PART 1) BUILD THE FOUNDATION

- You need to think statistically and to speak the language of your data
- Measures of Central Tendency
- Measures of Dispersion
- "IQR Statistics-Hands-On"

SUPERVISED LEARNING & UN-SUPERVISED LEARNING

- Classification, Regression, Fine-tuning your model
- Supervised Learning
- Unsupervised Learning
- Linear Regression
- "Metrics in Linear Regression Hands-on in Linear Regression"

LOGISTIC REGRESSION

- Logistic Regression
- Metrics in Logistic Regression
- Hands-on in Logistic Regression

LINEAR REGRESSION

- Linear regression
- Metrics for Linear regression

PRE-PROCESSING FOR MACHINE LEARNING IN PYTHON

- Introduction to Data Preprocessing
- Standardizing Data
- Exploratory Data Analysis
- Missing Values
- Outliers
- "Standardization Mnormalization Feature Scaling and Selection"

TREE BASED MODELS CLASSIFICATION AND REGRESSION TREES

- Decision Tree
- Bagging
- "Boosting Random Forest"

SQL

- Basics of database schema
- Importance SQL Clauses
- SQL Joins

Power BI

- Introduction to Power BI desktop
- ETL pipeline in Power BI
- Calculating fields with DAX
- Visualising data with reports
- AI functionalities of Power BI

PROGRAM MODES

Features	Self-Paced
Learning Format	Recorded Only
Span / Term	3 months
Total Content Duration	Approx. 49 hrs
Video Content Duration	~25 hrs
Certificates	2 (Projects ,completion)
Projects	3 (Mini + Minor + Major)
Number of Quizzes	12
Fee	₹ 6,000

Features	Mentor-Led
Learning Format	Live + Recorded
Span / Term	3 months
Total Content Duration	~82 to 98 hrs
Live Sessions Duration	18 to 22 hrs
Video Content Duration	~25 hrs
Projects	5 (2 Mini, 1 Minor, 2 Major)
Number of Quizzes	18
Certificates	2 (Projects ,completion)
Fee	₹ 10,000

Key Aspects	Self-Paced	Mentor-Led
Learning Mode	Recorded content	Live + Recorded
Learning Style	Flexible (at own pace)	Structured (guided by mentor)
Average Content Duration	~45-55 hrs	~80-100 hrs
Career Support	Basic: Resume-building webinar	Strong: Resume building session + LinkedIn profile optimization + Placement assistance + Interview prep content
Projects	3 (Mini, Minor, Major)	5 (2 Mini, 1 Minor, 2 Major)

Quiz Assessments	12	18
Certificates	2 (Projects ,completion)	2 (Projects ,completion)
Budget Type	₹6,000 Budget Friendly	₹10,000 Value for Money
Best Suited For	Beginners, affordable, flexible learning	Students needing structured mentorship & career prep
Span / Term	3 Months	3 Months
LMS Access Duration	1 Year	1 Year

TOOLS & TECHNOLOGY

Python & Jupyter Setup

- VS Code / Jupyter Notebook / PyCharm for coding and development
- Git for version control
- GitHub / GitLab for collaboration and version control

Data Science Technologies

- Python for data analysis, machine learning, and deep learning
- R (optional) for statistical analysis and visualization
- Pandas for data manipulation and analysis
- NumPy for numerical operations and array manipulation.

Backend Technologies for Data Science

- SQL Databases (MySQL, PostgreSQL) for structured data
- NoSQL Databases (MongoDB) for unstructured
- Apache Spark / Dask for distributed computing
- Hadoop for big data processing

Additional Tools

- DVC (Data Version Control) for managing large datasets and machine learning models
- MLflow for tracking experiments and models
- Kubeflow for managing end-to-end machine learning workflows
- TensorBoard for visualizing machine learning model training

WHY CHOOSE BEYONDSKILLS?

Expert-Led Training

Learn from seasoned data science professionals with extensive industry experience, ensuring you gain practical insights and the latest techniques crucial for success in the field of data science.

Comprehensive Curriculum

Our course covers all critical aspects of data science, including statistical analysis, machine learning models, data visualization, and big data technologies, providing a thorough and well-rounded education.

Interactive Learning Experience

Engage in hands-on projects, real-world case studies, and interactive sessions that make learning practical and applicable, helping you effectively apply data science concepts and tools.

Affordable and Flexible

We offer competitive pricing and flexible scheduling options to fit your needs, allowing you to balance your education with other commitments seamlessly.

Career Support

Benefit from dedicated career services, including resume building, interview preparation, and job placement assistance, to help you achieve your career goals in data science.

Recognition and Credibility

A certificate from upsynk, a respected name in data science education, adds significant value to your resume and enhances your professional credibility in the rapidly growing field of data science.

Benefits of the Program

Industry-Relevant Skills

Acquire essential Robotics skills through live, one-on-one sessions with experienced professionals. Access dedicated mentors who provide personalized guidance throughout your learning journey.

Interview Success

Master the fundamentals of Robotics to confidently navigate career opportunities and advance in the field of science and engineering.

Certifications

Upon completing the course, receive a prestigious upsynk certificate that significantly enhances your career prospects in Robotics.

Practical Tools and Technologies

Gain hands-on experience with key Robotics tools and techniques. Learn how to work with advanced characterization methods, nanomaterials, and fabrication technologies using industry-standard equipment.

Build a Standout Portfolio

Develop an impressive portfolio showcasing your Data Science projects and skills. Receive comprehensive support for resume building, mock interviews, and career guidance to make your CV stand out and prepare for successful job interviews.

REVIEW / FEEDBACK

I've completed a 2-month AI course with great success. Huge thanks to my mentors for their unwavering support. This experience has sharpened my skills and clarified my professional path. Excited for what lies ahead!

Pratham Vashisth

Data Science

Excited to have earned my certification in Data Science! A big thank you to BeyondSkills for their invaluable guidance and support during this journey. Looking forward to applying these data science skills to solve real-world challenges!

Diya Gupta

Data Science

Thrilled to have completed my certification in Data Science! A heartfelt thanks to beyondskills for their guidance and encouragement throughout this journey. Excited to use these data science skills to tackle real-world problems and drive impactful solutions!

Ritik Raj

Data Science

Grateful to have completed my Data Science internship at BeyondSkills! This journey has been an incredible learning experience, equipping me with hands-on skills and practical knowledge. Looking forward to utilizing these experiences to solve impactful challenges ahead!

joyasree kar

Data Science

MEET OUR EXPERT MENTORS

Our mentor specializes in turning beginners into skilled web developers through practical training and real-world projects.

SAURAV KUMAR SINHA

Tietoevry | Ex-Nokia,
Xiaomi, LnT, Capgemini

UTTAM GRADE

EY | Ex- Accenture, Mc-
Kinsey

VINOD KUMAR ESLAVATH

Ast. Manager - Data
Scientist at Shemaroo

BRANDS WHERE OUR ALUMINI ARE
