

BeyondSkills

Certification Program in

CYBERSECURITY

Course duration: 2 months

WHY CHOOSE CYBERSECURITY ?

Cybersecurity is an essential field in today's increasingly digital world, where protecting sensitive information and maintaining the integrity of systems is more critical than ever. With the rise of cyber threats and data breaches, organizations across all sectors are prioritizing cybersecurity, creating a growing demand for skilled professionals. Pursuing a career in cybersecurity offers not only the opportunity to safeguard vital information but also to work in a dynamic, challenging, and highly rewarding industry. The field's importance, combined with its rapid growth, makes cybersecurity a compelling choice for those interested in technology and security.

WHO SHOULD SIGN UP FOR OUR CERTIFICATION COURSE?

Our cybersecurity certification course is ideal for anyone looking to build a solid foundation in this critical field, whether you're an IT professional seeking to enhance your skills, a recent graduate aiming to break into the cybersecurity industry, or someone from a non-technical background interested in transitioning to a career in security.

It's also perfect for business leaders and managers who want to better understand cybersecurity to protect their organizations. With a focus on practical, hands-on learning, this course equips you with the knowledge and tools needed to succeed in the rapidly evolving world of cybersecurity.

Cybersecurity Career

CYBERSECURITY ANALYST

- **Entry-Level Salary:** ₹5-8 LPA | \$60,000-\$90,000 per year
- **Mid-Level Salary:** ₹10-18 LPA | \$90,000-\$120,000 per year
- **Skills Needed:** Network security, firewalls, and VPNs, Vulnerability scanning and threat detection tools, Incident response and investigation Knowledge of cybersecurity frameworks
- **Opportunities:** Monitoring network traffic for security threats, Conducting risk assessments and audits, Implementing security protocols and patches

CYBERSECURITY ENGINEER

- **Entry-Level Salary:** ₹6-10 LPA | \$70,000-\$110,000 per year
- **Mid-Level Salary:** ₹12-25 LPA | \$110,000-\$150,000 per year
- **Skills Needed:** Security architecture and infrastructure design Cryptography and encryption methods, knowledge of SIEM (Security Information and Event Management) tools, Familiarity with security software
- **Opportunities:** Designing and implementing security systems for organizations Enhancing infrastructure security and preventing breaches Analyzing security vulnerabilities and developing mitigation strategies

PENETRATION TESTER (ETHICAL HACKER)

- **Entry-Level Salary:** ₹7-12 LPA | \$80,000-\$110,000 per year
- **Mid-Level Salary:** ₹15-25 LPA | \$120,000-\$150,000 per year
- **Skills Needed:** Ethical hacking tools, Knowledge of network protocols and system vulnerabilities, Strong understanding of programming (Python, C, Java) Familiarity with penetration testing methodologies.
- **Opportunities:** Performing security assessments to identify vulnerabilities Conducting penetration tests and simulating cyberattacks, Providing recommendations for improving system security

CYBERSECURITY CONSULTANT

- **Entry-Level Salary:** ₹8-12 LPA | \$90,000-\$120,000 per year
- **Mid-Level Salary:** ₹15-30 LPA | \$130,000-\$170,000 per year
- **Skills Needed:** Cybersecurity risk management Deep understanding of security c, ompliance, Knowledge of security solutions, frameworks, and best practices Strong analytical and problem-solving skills
- **Opportunities:** Advising organizations on how to improve their cybersecurity posture, Assessing security risks and recommending solutions

OUR CURRICULUM

INTRODUCTION TO CYBER SECURITY

- Definition, importance, and scope
- Types of Cyber Threats
- Basic Concepts of CIA
- Cybersecurity Ethics, Principles and Best Practices

INTRODUCTION TO LINUX

- Basic commands
- Networking commands
- Service and logs.
- System Administration Commands
- Linux File system / Directory's

INTRODUCTION TO WINDOWS

- Access Control Types, Permissions, and UAC
- Windows Firewall and Windows Defender
- Windows Remote Management and RDP
- Basic CMD Commands and Batch Scripting
- Introduction to PowerShell
- Using CMD and PowerShell for System
- Administration and Basic Security Tasks

Introduction to Networking

- Types of networks
- Understanding network topologies
- Introduction to Network Protocols and Ports
- IP Addressing and Subnetting
- Firewall and its configuration

ETHICAL HACKING

- Footprinting, Reconnaissance, and Enumeration
- Vulnerability Assessment and Reporting.
- Windows and Linux System Hacking
- Password Cracking and hashing
- Wireshark and Network testing
- Wireless Network Hacking
- Digital Forensics.
- Cloud Computing and Security AWS/Azure
- Tor, Anonymous and Proxy service's

WEB APPLICATION SECURITY / HACKING / PENETRATION TESTING:

- Introduction to Web Hacking
- Introduction to Burp Suite
- Fuzzing & Directory Enumeration
- Subdomain Enumeration
- Authentication Bypass
- File inclusion Vulnerability.
- File upload vulnerability.
- Cross-site Scripting XSS
- Command Injection
- Sql Injection
- OWASP TOP 10-2021

SOC and SIEM

- Security Operations Center (SOC)
- Security Incident and Event Management SIEM)
- Tools, installation, and configuration
- Building IDS, Firewalls, and Honeypots
- Deployment and monitoring
- Documenting and Reporting

RED/BLUE/PURPLE TEAM HACKING SCENARIOS

- Blue Team Defense.
- Red Team Offensive testing.
- Purple Team Organization Task

OFFENSIVE PENETRATION TESTING

- Attacking real world Vulnerable Service's
- Testing web application for Vulnerability Finding.
- Anonymity, Dark web, and secure communication.

TESTING

Comprehensive Security Checklists for Auditing, testing

PROGRAM MODES

Features	Self-Paced
Learning Format	Recorded Only
Span / Term	3 months
Total Content Duration	Approx. 46 hrs
Video Content Duration	~22 hrs
Certificates	2 (Projects ,completion)
Projects	3 (Mini + Minor + Major)
Number of Quizzes	12
Fee	₹ 6,000

Features	Mentor-Led
Learning Format	Live + Recorded
Span / Term	3 months
Total Content Duration	~77 to 93 hrs
Live Sessions Duration	16 to 20 hrs
Video Content Duration	~22 hrs
Projects	5 (2 Mini, 1 Minor, 2 Major)
Number of Quizzes	18
Certificates	2 (Projects ,completion)
Fee	₹ 10,000

Key Aspects	Self-Paced	Mentor-Led
Learning Mode	Recorded content	Live + Recorded
Learning Style	Flexible (at own pace)	Structured (guided by mentor)
Average Content Duration	~45-55 hrs	~80-100 hrs
Career Support	Basic: Resume-building webinar	Strong: Resume building session + LinkedIn profile optimization + Placement assistance + Interview prep content
Projects	3 (Mini, Minor, Major)	5 (2 Mini, 1 Minor, 2 Major)

Quiz Assessments	12	18
Certificates	2 (Projects ,completion)	2 (Projects ,completion)
Budget Type	₹6,000 Budget Friendly	₹10,000 Value for Money
Best Suited For	Beginners, affordable, flexible learning	Students needing structured mentorship & career prep
Span / Term	3 Months	3 Months
LMS Access Duration	1 Year	1 Year

TOOLS & TECHNOLOGY

Virtual Lab and Network Security

- Virtualization Tools: VirtualBox, VMware Workstation, Hyper-V.
- Network Scanning: Nmap, Wireshark, Netcat.
- Threat Research Tools: Shodan, Maltego, VirusTotal.
- Network Defense: pfSense, Snort, Suricata.

System Hardening and Cryptography

- Windows Security Tools: Group Policy Editor, Windows Defender.
- Linux Security Tools: SELinux, AppArmor, Fail2Ban.
- Encryption Tools: OpenSSL, GnuPG, VeraCrypt.
- SSL/TLS Certificates: OpenSSL, Let's Encrypt, Keytool.

Web and Application Security

- Web Vulnerability Scanners: Burp Suite, OWASP ZAP, Nikto.
- OWASP Practices: Secure coding and OWASP Top 10 guidelines.
- Vulnerability Assessment: Nessus, Qualys, OpenVAS.
- Penetration Testing: Metasploit, Kali Linux tools, SQLMap.

Incident Response and Cloud Security

- Incident Response Tools: TheHive, MISP, Wireshark.
- Digital Forensics: Autopsy, FTK Imager, EnCase.
- Cloud Security: AWS Security Hub, Azure Security Center, Prisma Cloud.
- Policy & Compliance: CIS Benchmarks, ISO/IEC 27001, NIST Framework.

WHY CHOOSE BEYONDSKILLS?

Expert-Led Training

Learn from seasoned cybersecurity professionals with extensive industry experience, ensuring you gain practical insights and the latest techniques crucial for success in the field of cybersecurity.

Comprehensive Curriculum

Our course covers all critical aspects of cybersecurity, including threat analysis, ethical hacking, network security, and data protection, providing a thorough and well-rounded education.

Interactive Learning Experience

Engage in hands-on projects, real-world case studies, and interactive sessions that make learning practical and applicable, helping you effectively apply cybersecurity concepts and tools.

Affordable and Flexible

We offer competitive pricing and flexible scheduling options to fit your needs, allowing you to balance your education with other commitments seamlessly.

Career Support

Benefit from dedicated career services, including resume building, interview preparation, and job placement assistance, to help you achieve your career goals in cybersecurity.

Recognition and Credibility

A certificate from upsynk, a respected name in cybersecurity education, adds significant value to your resume and enhances your professional credibility in the rapidly growing field of cybersecurity.

Benefits of the Program

Industry-Relevant Skills

Acquire essential Cybersecurity skills through live, one-on-one sessions with experienced professionals. Access dedicated mentors who provide personalized guidance throughout your learning journey.

Interview Success

Master the fundamentals of Cybersecurity to confidently navigate career opportunities and advance in the field of science and engineering.

Certification

Upon completing the course, receive a prestigious upsynk certificate that significantly enhances your career prospects in Cybersecurity .

Practical Tools and Technologies

Gain hands-on experience with key Cybersecurity tools and techniques. Learn how to work with advanced characterization methods, nanomaterials, and fabrication technologies using industry-standard equipment.

Build a Standout Portfolio

Develop an impressive portfolio showcasing your Cybersecurity projects and skills. Receive comprehensive support for resume building, mock interviews, and career guidance to make your CV stand out and prepare for successful job interviews.

MEET OUR EXPERT MENTORS

Our mentor specializes in turning beginners into skilled Cybersecurity through practical training and real-world projects.

Verint

REVIEW / FEEDBACK

As a Cybersecurity intern at beyondskills, certified by ISO 9001, I gained hands-on experience in threat analysis and system protection. The internship sharpened my skills and deepened my interest in cybersecurity.

Livanshu Kamra
Cyber Security

Thrilled to earn my Cybersecurity certification! Big thanks to beyondskills for their support. I'm excited to apply these skills to tackle real-world security challenges!

Ratnam Singh
Cyber Security

As a Cybersecurity intern at beyondskills, certified by ISO 9001, I gained practical experience in risk management and data security. The internship enhanced my skills and strengthened my passion for cybersecurity.

Akhil Kumar Boge
Cyber Security

Just earned my Cybersecurity certification! Thanks to beyondskills for their amazing support. I'm excited to put my new skills to work in solving security challenges!

**Bhumika
Prajapati**
Cyber Security

BRANDS WHERE OUR ALUMINI ARE

YOUR TRUST IS OUR PRIORITY

We are proudly certified by these organizations

Startup India
Recognized
